

2009 New Season's Olive Oil Regain

Fontvieille, November 2009

We started harvesting our olives in mid November. For us, this is a much smaller crop than in 2008. Our trees are not irrigated, and we do not use any pesticides or herbicides in our groves, or any chemical fertilizers.

Our « Primeur » oil is a pure « juice of the olive », to drink without moderation. This first bottling will be made without filtration, and the oil will be cloudy, and may form a deposit, which in no way harms its flavour. Pour it on your salads, vegetables, fish, or simply enjoy it with some bread. You may taste the oil in our shop from 1st December onwards, the date on which it will be available for sale. We can arrange delivery of gift wrapped bottles, with your personal message, for your end of year presents.
